Bruguerolle, B. 155

Cambar, J. 183

D'Alonzo, G. E. 81

Erny, P. 155

Hecquet, B. 1

Labrecque, G. 155
Laval, M. 183
Levi, F. 25

Moore, J. G. 113

Redon, P. 183
Reinberg, A. 25, 81
Robert, S. 155

Simmons, D. J. 47
Smolensky, M. H. 81, 113

SUBJECT INDEX

ACTH 47
Adrenal 183
Aldosterone 183
Analgesics 155
Anesthetics
  General 155
  Local 155
Angiotensin 183
Anticholinergiques 81
Atrial natriuretic factor 183

Barbiturates 155
Benzodiazepines 155
Beta-agonist (sustained-release) 183
Blood vessels 183
Bone
  Calcification 47
  Formation 47
  Resorption 47
Brain 183

Calcification 47
Calcitonin 47
Chronopharmacokinetics 1
  Area under the curve 1
  Concentration peak 1
  Constant effect 1
  Explicative parameters 1
  Half-life 1
  Mean residence time 1
  Optimal effect 1
Chronotherapy 47, 81
Circannual Rhythms 113
Circadian rhythms 183, 25, 113
Corticoseriods 81
Curarizing agents 155

Dose-response relationship 25
  Acrophase 25
  Amplitude 25
  Circadian rhythms 25
  24-H mean 25

Foetus 183

Gastric transmucosal 113
  Potential difference 113
  Electrical resistance 113
Glucocorticoid 47

H1-antihistamines 81
H2-receptor antagonist
  Medications
    Oral 113
    Intravenous 113
Heart 183

Kidneys 183

Light 137

Melatonin 137
  Effects of seasonal rhythms 137
  Effects of circadian rhythms 137
  Optimization of breeding 137
  Pharmacologic effects in man 137

Nocturnal asthma 81

Osteoporosis 47
Ovaries 183

Parathyroid hormone 47
Pineal 137

Rats 47
Renin 183

Theophyllines (one-a-day) 81
Theoretical aspects of chronopharmacology 1
Treatment of disturbed rhythms 137

Ulcer disease 113
  Chronotherapy 113
  Etiology and pathogenesis 113
  Laboratory animal models 113
